

# Inclusion Drives Innovation and Innovation Powers Our Business

*Intel is a proud sponsor of AWESOME and vision for Women Leadership*

**Bob Swan,**  
Chief Executive Officer

Intel was founded in 1968 and our technology has been at the heart of computing breakthroughs ever since. More than 50 years later, we are a world leader in the design and manufacturing of essential technologies that power the cloud and an increasingly smart, connected world. Intel is transforming from a PC-centric company to a data-centric company, with workload-optimized solutions designed to help a broad set of customers process, move, and store ever-increasing amounts of data. This exponential growth of data is reshaping computing and expanding our opportunity.

We are investing to lead data-driven technology inflections that position us to play a bigger role in the success of our customers. These include: the rise of AI, the transformation of networks, the intelligent edge emerging with the Internet of Things, and autonomous driving. Intel's ambitions have never been greater: to create world-changing technology that enriches the lives of every person on earth.

Our commitment to corporate responsibility and to creating an inclusive environment to support the talent of our amazing people supports our ambitions and makes us stronger. When every employee has a voice and a sense of belonging, Intel can be more innovative, agile, and competitive.

**Sandra Rivera**  
Executive Vice  
President, Chief  
People Officer

“Tapping into the richness of our diverse workforce is key to driving future growth. Intel will continue to be transparent about our progress and our challenges, so we can partner with our customers and ecosystem to find better solutions together.”

**Barbara Whye**  
Vice President,  
Chief Diversity and  
Inclusion Officer

“When transparency reveals areas for improvement, we must work together to understand the challenges and put forth specific actions to create a more inclusive industry. Overcoming systemic challenges will require accountability on all fronts and a fierce sense of urgency.”

**Dr. Randhir Thakur**  
Corporate Vice  
President, Global  
Supply Chain

“Intel’s Global Supply Chain team role models an inclusive culture that values diversity, upholds fairness, and fosters an environment of respect and belonging. We invest heavily in our supply chain talent who drive Intel’s leadership in supply chain excellence, sustainability and supplier diversity.”

**\$1B IN SPENDING**

**GOAL ACHIEVED.** Increase our annual spending with diverse-owned suppliers to \$1 billion by 2020.

*Also achieved our goal to spend \$200M with women-owned businesses globally.*

**At Intel, inclusion starts with the first “hello.”**

- We create a sense of belonging for everyone.
- We value the unique perspectives of every individual.
- We are problem solvers, innovators and inventors.
- We work to deliver excellence to our customers.
- We are a global team and the face of the future.
- We are creating a better tomorrow, today.

**We are Intel.**
